Motor Neuron Co-culture Medium

Motor Neuron Co-culture Medium is designed for *in vitro* co-culture of iPSC-derived motor neurons and other types of cells. This medium is fully supplemented, sterile filtered and is ready for use.

Catalog No:	MD-0023-100ML
Quantity:	100 mL
Bioassay:	Each lot is validated for co-culture of iPSC-derived motor neuron and primary human astrocytes.
Product Use:	<u>Motor Neuron Co-culture Medium is for research use only.</u> It is not approved for human or animal use, or for application in <i>in vitro</i> diagnostic procedures.
Sterility Test:	Negative for bacteria, yeast, fungi, and mycoplasma.
Shipping:	Dry ice.
Storage:	The complete medium can be stored at -20°C for one year. Protect from light.

Instructions for Use: Thaw the medium in 37°C water bath. Gently tilt the bottle several times to ensure the contents are completely mixed. Once thawed, the complete medium is stable for one month at 4°C with minimal exposure to light.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.
